

Management (Operations and Supply Management), MSc

Swansea University | United Kingdom
Sea & Beyond

SEA & BEYOND

Introduction:-

The MSc Management (Operations and Supply Management) is designed for students interested in understanding how products and services are made and distributed, and how these processes can be improved for modern organisations.

The programme combines operations and supply management with core management areas, helping students develop a well-rounded understanding of contemporary business management.

Facts & Figures:-

Duration:- 12 Months Full Time

Fees:- £23,900 (International, 2026/27)

Start date:- September 2026 or January 2027

Mode of conduct:- Campus Based

Location:- Bay Campus

Entry requirement:- 2:2 undergraduate degree / equivalent

Core Modules

Managing Financial Resources in a Digital World

Managing People and Performance

Managing Supply Chains and Projects

Marketing Strategy

Sustainable Operations Management

Operational Excellence

Optional: Dissertation OR Business Project

Professional Accreditation:-

Swansea University's School of Management is an approved Higher Education Partner of the Chartered Management Institute (CMI).

Upon successful completion of the relevant mapped modules, students can qualify for CMI's Level 7 Certificate in Strategic Management and Leadership.

The course is designed to build management capability alongside specialist operations and supply management knowledge.

Location and Advantage:-

SWANSEA – UNITED KINGDOM

Swansea University's Bay Campus is the study location for this programme.

Swansea offers an attractive student environment on the South Coast of Wales, with access to the waterfront, city centre and the Gower Peninsula.
